PROFILE

Resource Geologist with 19 years of expertise in geological modeling, resource estimation, and data analysis. Proficient in brownfield integration, conceptual geo modeling, and utilizing Geovariances Isatis, Datamine, Maptek Vulcan, and Leapfrog Geo. Proven success in developing and executing production plans, managing drilling campaigns, and databases. Skilled in resource evaluation, mine planning, and applying machine learning. Holding a Bachelor's Degree in Geology from Universidade Estadual Paulista - UNESP, my focus is on driving success in resource estimates.

EMPLOYMENT HISTORY

Resource Geologist , Vale

Belo Horizonte - Minas
Gerais - Brazil

Feb 2012 — Oct 2024

- Modeled and / or estimated of iron ore deposits: Conta História, Fábrica Nova, Serra Norte N4, Serra Norte N5, Manganês do Azul, Capitão do Mato, Tamanduá, Capão Xavier, Baú and Alegria;
- Worked as a reviewer of projects developed by peers;
- Experienced in due diligences, visits to targets offered by other companies, participation in acquisition processes;
- Monitoring of Audits and Resource Certification;
- Annual depletion and reconciliation of current models;
- Participation in interfaces with short-term teams, interaction with short-term sampling, mapping and geological detailing;
- Participation in internal analysis and process improvement programs.

Geologist - Consultant , Datamine

Belo Horizonte - Minas
Gerais - Brazil

Feb 2011 — Jan 2012

- Worked as a consultant for custom services in Studio 3, resource evaluation, mine planning routines, implementation of geological database.
- Datamine Studio Advanced training instructor, estimation practices and Resource classification, automation by scripting.

Geologist , Ferrous Resources

Congonhas - Minas
Gerais - Brazil

Jun 2008 — Feb 2011

- Responsible for interpretation and modeling of Esperança, Santanense, Serrinha and Viga deposits(2008-2009).
- Performed grade estimation and classification for Resource Statement.
- Development of methods for evaluation and classification of resources, reporting directly to QP (Qualified Person).
- Responsible for the Viga Norte Exploratory Project - Diamond drilling campaign.

- Coordinated and executed drilling plans, drillcore description, sampling, interpretation of conceptual model and 3D modeling.

- Database development, implementation and optimization for resource evaluation.

- Designed and worked in sampling for the Short Term Plan, construction of detailed geological model, grade estimation and annual production forecasts.

Geologist , Kinross Gold Corp

Paracatu - Minas Gerais
- Brazil

Feb 2006 — Sep 2008

Responsible for short-term plans at the Morro do Ouro Mine (2006) -

Development and executing of quarterly, monthly and 1Y production plans, according to production goals, as well as safety and environmental policies.

- Development and monitoring of drilling campaigns (2006-2008).

- Database management (data entry, queries and maintenance).

- Responsible for the 3D modeling in Paracatu Gold deposit, according to the national and international standards of practices in resource assessment (2007).

- Structural Mapping of the Morro do Ouro Mine - Paracatu - MG (2005) -

Monography (orientation and geometry driven modelling and grade estimates).

- Planned and supervised diamond drilling campaign, as well core logging.

EDUCATION

Bachelor's Degree in Geology, Universidade Estadual Paulista - UNESP Rio Claro - São Paulo - Brazil

Mar 2001 — Dec 2005
